To Whom It May Concern:

We write this testimonial freely and with confidence.

We have been using the Mindray SV-300 ventilator for 12 months, and no major problems were encountered with the system since then.

We have found that the user interface to be easy to use, and greatly informative in managing ventilation to our patients.

System care and maintenance found to be easy due to the modular nature of the user maintenance parts.

With regards of the local distributor of the said ventilator, Respicare Enterprises Inc., found to be very compliant in clinical and technical training upon purchased, as well as in aftersales services of repair, preventive maintenance, and staff retraining.

As for the performance of the ventilator, we highly recommend this product, Mindray SV 300, as well as the local distributor, Respicare Enterprises Inc., since our expectations were met and to be more than adequate for our purposes. Hence, we are endorsing this product for the client who needs a value performance 3-in-1 ventilator for their facility.

Thank you.

Sincerely yours,

Bidelia S. Dionisio
